***Protector / Filter Measurement Instruction:**

1. We recommend that you measure the screen/monitor diagonally.
2. Measure the screen/ monitor/ TV (with the frame/border if required) and refer to the above product specification. For some models, required protector / filter size is not necessarily the same as your device's size. Frames around the display area may need to include in your consideration of filter size. please refer to <http://fiara.com.au/faqs/> for more details before order placed.
